

DETAIL OF ADMINISTRATIVE PROCEDURES FOR OBTAINING PERMITS AND RESIDENCE TITLES

The Ministry of Foreign Affairs and Cooperation and the General Directorate of National Security grant a number of facilities for professionals sponsored by or affiliated with a company holding CFC status, as well as for their family members (spouses and dependent children), aiming to ease the conditions and simplify the procedures for obtaining a business visa and a residence permit in Morocco.

1 - BUSINESS VISA FACILITATION

Eligible persons : professionals sponsored by a company holding CFC status and their family members (spouses and dependent children).

These facilities aim to accelerate the issuance of short- and long-term business visas, as follows :

- Short-term visa, with multiple entries and uninterrupted stays of up to 90 days. Applications are processed within one business day.
- Long-term visa, with multiple entries. The duration of each stay ranges from one day to ninety (90) days. The validity of this visa is set at one year. Applications are processed within three (3) business days for the first application and 24 hours for any renewal.

How to benefit ?

1 - Prepare the visa application file, including the following documents :

- Visa application form for entry into the Kingdom of Morocco, duly completed in uppercase Latin characters. The form may be completed in Arabic; however, the family name, first name, parentage, and place of birth must be written in Latin characters for technical reasons;

2 - RESIDENCE PERMIT FACILITATION

 - o Authorization of same-gender shared accommodation ;
 - o Removal of the requirement to legalize the lease agreement ;
 - o Accelerated issuance of residence permits. For complete application files, the processing time is two (2) weeks.
